

AEGIS Missing-Items Worklist — Sections Scoring Over 30%

Source: [audit/AEGIS_Percentile_Audit_2026-07-27.pdf](#) (AEGIS Percentile Compliance Audit, 27 July 2026)

Generated: 30 July 2026

Platform baseline: commit [9f51336](#) ("fixed file architecture"); live application is [old_version/](#) + [old_version/assets/db.js](#)

Scope & Selection Rule

The audit scores **43 sections** across 10 standards (headline: 33.7%, the unweighted mean of all 43). This worklist isolates every section scoring **strictly over 30% — 20 of 43 sections** — and lists exhaustively everything the audit marks as missing, incomplete, unstructured, unwired or unpersisted within them.

#	Section	Score
1	5.9 Homestay annual training	90%
2	5.11 Visits and inspections	85%
3	2.9 Finance	82.5%
4	3.2 Student wellbeing	75%
5	5.10 Homestay H&S and annual visit	72%
6	8 Day students & private fostering	69%
7	6.3 Safeguarding training	68.3%
8	10 Liaison with parents	66.7%
9	3.3 Mental health	65.3%
10	2.6 Emergency procedures	58%
11	5.2 Homestay information	58%
12	5.3 Homestay profile	55%
13	3.4 Student information	52.5%
14	5.4 Availability of homestays	50%
15	4 Travel arrangements	47.5%
16	6.2 Designated Safeguarding Lead	46.4%
17	9 Liaison with partner schools	46.1%
18	2.1 Staff, volunteers & homestays	42.5%
19	5.1 Homestay checks	40%
20	2.8 Safer recruitment	33.6%

Three appendix score-tables sit above 30% and are folded into their parent sections: **Appendix 13** (88%, under 3.4), **Appendix 11** (81%, under 3.3), **Appendix 7** (42%, under 2.8).

Boundary cases deliberately excluded (scored at 30%, not strictly over): **2.7 Information sharing & data protection** (30%), **6.10 Online safety** (30%), **Appendix 5 Homestay Self-Declaration** (30%). The 23 sections scoring 30% or below are listed in Appendix B so nothing is silently dropped.

Part 1 — Missing Fields / Data Models

2.1 Staff, Volunteers & Homestays (42.5%)

- ☐ 2.1.2 — Independence / conflict-of-interest declaration field on staff records (absent entirely)
- ☐ 2.1.2 — Independence / conflict-of-interest declaration field on host records (absent entirely)
- ☐ 2.1.3 — Job-description document store (no store of any kind)
- ☐ 2.1.3 — Reporting-line field per staff record
- ☐ 2.1.3 — Stated safeguarding responsibility per role (**primaryWork** free-text only)
- ☐ 2.1.5 — Interview-notes record for appointments
- ☐ 2.1.5 — British citizenship / settled-status *evidence* field (only an **isCitizen** boolean; no evidence viewed, no date)
- ☐ 2.1.6 — Code-of-conduct document store (staff, coordinators, volunteers, homestays)
- ☐ 2.1.6 — Representation of the 21 Appendix 6 code-of-conduct topics (none present)
- ☐ 2.1.8 — Full-time UK residency field (**isCitizen** / **worksOutsideUK** booleans only)
- ☐ 2.1.8 — Settled-status evidence upload
- ☐ 2.1.8 — "Date viewed" field for settled-status evidence
- ☐ 2.1.9 — Guardian-to-student ratio / caseload count / capacity metric to evidence sufficiency

2.6 Emergency Procedures (58%)

- ☐ 2.6.1 — Field evidencing the 24-hour number was *issued* to students, parents, homestays and schools
- ☐ 2.6.2 — Emergency plan document (the plan itself, as a stored record)
- ☐ 2.6.2 — Named responsible person per emergency scenario
- ☐ 2.6.3 — Explicit lone-working / emergency-cover-arrangement record

2.8 Safer Recruitment (33.6%) — incl. Appendix 7 (42%)

- ☐ 2.8.1 — Safer-recruitment policy store and policy record (Appendix A essential submission document)
- ☐ 2.8.2 — Safer-recruitment training *type* on staff records (only safeguarding is typed)
- ☐ 2.8.2 — Training provider field
- ☐ 2.8.2 — Training certificate field for safer-recruitment training
- ☐ 2.8.3 — Interview-note record for staff and homestay interviews (hosts hold only a one-line **safeRecruitment** summary)
- ☐ 2.8.3 — Interview date, panel composition and questions asked
- ☐ 2.8.4 — Referee name and relationship to applicant
- ☐ 2.8.4 — "Known for 2+ years" confirmation flag
- ☐ 2.8.4 — Employer / professional referee flag
- ☐ 2.8.4 — Reference verification date
- ☐ 2.8.4 — Log of any clarifying call where discrepancies were followed up
- ☐ 2.8.4 — Reference retention period
- ☐ 2.8.5 — Per-member DBS fields on household members 16+: number, level, issue date, certificate (only a free-text **secondaryAdultDbs** string exists)
- ☐ 2.8.6 — Barred-list check as a *separate* field, with its own date and checker (currently derived from **person.dbsStatus** `=== 'clear'`)
- ☐ 2.8.6 — Written-permission-before-DBS record
- ☐ 2.8.6 — DBS Update Service online-check log
- ☐ 2.8.7 — Conviction-disclosure field
- ☐ 2.8.7 — Written risk-assessment record where a DBS discloses a conviction
- ☐ 2.8.7 — Representation of the UKVI criminal-conviction refusal criteria
- ☐ 2.8.8 — Country lived/worked in abroad
- ☐ 2.8.8 — Dates abroad
- ☐ 2.8.8 — Fallback record where no overseas check is obtainable (extra reference + risk assessment)
- ☐ 2.8.9 — Identity document *type* seen (passport vs. birth certificate) — path only today
- ☐ 2.8.9 — Permission-to-retain-a-copy field
- ☐ 2.8.10 — Date the right-to-work check took place (the specific thing 2.8.10 asks to record)
- ☐ 2.8.11 — Online-search due-diligence record: date and outcome fields

- ☐ **Appendix 7** — Date of birth on the staff / host / driver schema (SCR column renders a hardcoded –)
- ☐ **Appendix 7** — Address surfaced as an SCR column (held on host/driver records, absent from the SCR)
- ☐ **Appendix 7** — ID check: which document type was seen (path only)
- ☐ **Appendix 7** — ID documents seen: date and initials of receiver (not captured)
- ☐ **Appendix 7** — DBS disclosure *level* stored rather than hardcoded "Enhanced"
- ☐ **Appendix 7** — "Original certificate viewed by" field (column currently shows the certificate path)
- ☐ **Appendix 7** — Date barred-list check undertaken
- ☐ **Appendix 7** — Name of checker for the barred-list check
- ☐ **Appendix 7** — What right-to-work evidence was provided (evidence type, not just path)
- ☐ **Appendix 7** — Name of checker and date for right to work
- ☐ **Appendix 7** — Evidence of British citizenship / settled status + date (*isCitizen* boolean only)
- ☐ **Appendix 7** — Overseas check: date received/verified and initials (path only)
- ☐ **Appendix 7** — References: dates received/verified and initials (two paths, no dates or initials)
- ☐ **Appendix 7** — SCR "Notes" column (does not exist)

3.3 Mental Health (65.3%) — incl. Appendix 11 (81%)

- ☐ **3.3.2** — Appendix 10 external support / agency directory, accessible to staff
- ☐ **3.3.4** — Structured risk-assessment fields for pre-guardianship risk (currently a document upload only: *riskAssessmentFile* + *riskAssessmentExpiryDate*)
- ☐ **Appendix 11** — "Copy of relevant policies attached" field on the student removal form
- ☐ **Appendix 11** — "Position" field for the person completing the removal form
- ☐ **Appendix 11** — "Date completed" field on the removal form

3.4 Student Information (52.5%) — incl. Appendix 13 (88%)

- ☐ **3.4.1** — Last-reviewed date on the student record (annual-review element)
- ☐ **3.4.1** — Review-due flag on the student record
- ☐ **3.4.2** — Who granted each parental permission
- ☐ **3.4.2** — When each permission was granted
- ☐ **3.4.2** — Evidence by which each permission was granted
- ☐ **3.4.4** — Medicine administration record: per-dose date, time, dose and administered-by (an incident log is not a medicine administration record)
- ☐ **3.4.4** — Field recording that a homestay is trained and comfortable for asthma / diabetes / severe-allergy cases before placement
- ☐ **Appendix 13** — UK family contacts as six structured fields — relationship, names, addresses, telephone, email, occupations (a single free-text *ukFamilyContacts* textarea stands in)
- ☐ **Appendix 13** — Agent address
- ☐ **Appendix 13** — "Ongoing services provided to the student" as structured data (currently unstructured)
- ☐ **Appendix 13** — School tutor email
- ☐ **Appendix 13** — School tutor telephone
- ☐ **Appendix 13** — *tutorOrHouse* made editable in *student-create* / *student-edit* (written as '' on creation; only present on seeded records)
- ☐ **Appendix 13** — Passport ID page / eVisa copy stored as the actual file, not a path (*legal.passportOrBRPPath*)

4 Travel Arrangements (47.5%)

- ☐ **4.3** — External transport-provider entity (no way to record a licensed taxi firm at all)
- ☐ **4.3** — Firm's written confirmation that enhanced DBS checks were done on its drivers (Appendix A essential submission item)
- ☐ **4.3** — Date that confirmation was obtained
- ☐ **4.4** — Structured child-seat / booster data (*driver.childSeat* is a free-text note)
- ☐ **4.4** — Student height field (needed for the under-135cm rule)
- ☐ **4.4** — Age-based child-seat requirement flag on the trip record

5.1 Homestay Checks (40%)

- ☐ **5.1.1** — Evidence upload for primary carer's British / settled status
- ☐ **5.1.1** — "Date viewed" for that evidence

- ☐ 5.1.1 — Checker identity for that evidence
- ☐ 5.1.2 — The eleven Appendix 5 declaration questions as structured answers (currently a file upload only)
- ☐ 5.1.2 — Per-household-member variant of the self-declaration
- ☐ 5.1.3 — Per-resident DBS fields on **householdMembers**: number, level, issue date, certificate (only free-text **secondaryAdultDbS** covers secondary adults)
- ☐ 5.1.3 — Flag distinguishing residents temporarily working or studying away
- ☐ 5.1.3 — **overnightVisitors** structured per visitor so 16+ DBS can be cross-checked

5.2 Homestay Information (58%)

- ☐ 5.2.1 — Gender per homestay member (named field, absent)
- ☐ 5.2.1 — Interests and hobbies per homestay member (named field, absent)
- ☐ 5.2.1 — Religion per homestay member (named field, absent)
- ☐ 5.2.1 — Smoker status — and if so, inside or outside the property (named field, absent; 5.5.1.8 also depends on it)
- ☐ 5.2.2 — Regular-visitor information structured per visitor, with an explicit overnight flag (currently **overnightVisitors** prose)

5.3 Homestay Profile (55%)

- ☐ 5.3.1 — Photograph on the host record itself (photos currently only reachable via the visit report)

5.4 Availability of Homestays (50%)

- ☐ 5.4.1 — Emergency-provision flag on the host record

5.10 Homestay H&S and Annual Visit (72%)

- ☐ 5.10.1 — Written health & safety policy record/store (Appendix A: Welfare Health and Safety Policy)
- ☐ 5.10.1.2 — Accident-book subject widened beyond students, so accidents to staff, homestay members and volunteers can be recorded
- ☐ 5.10.3 — "Changes since the last visit" field on the annual visit report

6.2 Designated Safeguarding Lead (46.4%)

- ☐ 6.2.2 — Flag that DSL training course was *live* (the standard is explicit only live courses are acceptable)
- ☐ 6.2.2 — DSL training provider
- ☐ 6.2.2 — DSL training certificate
- ☐ 6.2.3 — UK residency field for the DSL (only **isCitizen**; a second staff member is **worksOutsideUK: true**, so residency is a live distinction the schema cannot express)
- ☐ 6.2.4 — Contacts on the school record (holds only **id**, **name** and a **services** object)
- ☐ 6.2.4 — Named safeguarding counterpart per partner school
- ☐ 6.2.5 — Local Safeguarding Partnership referral record
- ☐ 6.2.5 — Inter-agency correspondence log
- ☐ 6.2.5 — Referral outcome tracking
- ☐ 6.2.5 — LADO contacts held as data rather than static copy on **emergency-procedures.html**
- ☐ 6.2.6 — Correspondence attachment on safeguarding cases (children's services, police)
- ☐ 6.2.7 — Deputy-DSL designation field (cover exists in substance but is inferred, not evidenced)

6.3 Safeguarding Training (68.3%)

- ☐ 6.3.2 — Safeguarding training *expiry* field on host records (they hold **safeguardingTrainingDate** only, so the record cannot show when training lapses)
- ☐ 6.3.2 — Safeguarding training *expiry* field on driver records

8 Day Students, Prolonged Stays & Private Fostering (69%)

- ☐ 8.1 — Under-18-with-disability variant of the private-fostering trigger (not modelled)
- ☐ 8.3 — Record of *what was explained* at each stakeholder briefing (only that the briefing happened: **schoolBriefed**, **homestayBriefed**, **parentConsent**)
- ☐ 8.3 — Itemised LA visits-and-meetings expectation
- ☐ 8.4 — Information-sharing permission fields for student, agent, homestay and school (captured for parents only)

- ☐ 8.5 — Cumulative-days tracking for over-16 day students

9 Liaison with Partner Schools (46.1%)

- ☐ 9.1 — Per-family contact expectation ("in line with the requirements of the parents" is not captured)
- ☐ 9.2 — Site-visit notification contact type (contact type is free text)
- ☐ 9.2 — Scheduled-visit record
- ☐ 9.3 — Service confirmation held **per student** rather than per school
- ☐ 9.3 — Academic-year stamp on the service confirmation
- ☐ 9.7 — Visit type on the school log
- ☐ 9.7 — Attendee field on school visits
- ☐ 9.7 — Visit note distinct from a communication summary
- ☐ 9.8 — Named point of contact per school
- ☐ 9.8 — Cover designation when the named contact is unavailable

10 Liaison with Parents (66.7%)

- ☐ 10.2 — Field recording that each parent was given the 24-hour number
- ☐ 10.2 — Per-parent published emergency contact (the displayed line is static design copy)

Part 2 — Missing Functionalities / Features

2.1 Staff, Volunteers & Homestays (42.5%)

- ☐ 2.1.1 — Organogram (named in Appendix A; the only gap in an otherwise 90% requirement)
- ☐ 2.1.2 — Cross-check of staff/host independence against `student.schoolId`
- ☐ 2.1.4 — Staff and volunteer induction that persists: `induction-checklist.html` and `induction-create.html` have no `db.js` and write nothing (homestay induction is complete)

2.6 Emergency Procedures (58%)

- ☐ 2.6.1 — Wire the parent-facing 24-hour number (it lives only in static copy on `parent-portal.html`)
- ☐ 2.6.2 — Replace static `emergency-protocols.html` with a persisted emergency plan

2.9 Finance (82.5%)

- ☐ 2.9.1 — Route `finances.html`, `finances-archived.html` and `vat-reclamation.html` through `db.js` instead of writing straight to `localStorage` (they sit outside the shared schema)
- ☐ 2.9.2 — Per-student running balance / ledger with receipts (finance events are linked to students but there is no ledger)

3.2 Student Wellbeing (75%)

- ☐ 3.2.1 — Check-in cadence rule and overdue-check-in alert
- ☐ 3.2.2 — Make the "Escalate to DSL concern" / "Escalate to low-level concern" outcomes on `welfare-note-create.html` actually create a concern record (currently recorded as text only) — this is the audit's finding #2 and a regression against the 22 June audit
- ☐ 3.2.3 — Wire `student-portal.html` (static, no `db.js`)
- ☐ 3.2.3 — Wire `student-concern-submit.html` (static, no `db.js`)

3.3 Mental Health (65.3%)

- ☐ 3.3.1 — Written mental-health support procedure and the Appendix 12 policy (the workflow is real; the documents are not)
- ☐ 3.3.2 — DSL-escalation step wired from the mental-health case
- ☐ 3.3.4 — Gate placement on a completed risk assessment, so "before agreeing to become their guardian" is enforced

3.4 Student Information (52.5%)

- ☐ 3.4.1 — Annual-review alert for student information (no review-due alerting today)
- ☐ 3.4.3 — Sharing controls / redaction on the host-facing profile
- ☐ 3.4.3 — Encrypted storage and access control for confidential student data (*cross-cutting — see Part 3*)

4 Travel Arrangements (47.5%)

- ☐ 4.1 — Share the travel record with the **student** (no route exists)
- ☐ 4.1 — Share the travel record with the **agent** (no route exists)
- ☐ 4.1 — Share the travel record with the **homestay** (no route exists)
- ☐ 4.2 — Block trip creation when neither student-level nor per-trip travel permission is present
- ☐ 4.4 — Validate that the assigned vehicle carries the right child seat for the assigned student
- ☐ 4.3 — (*advisory, excluded from the section average*) Permission-to-travel letter generation per Appendix 9 — the platform already proves it can do this via `private-fostering-notification.html` + jsPDF

5.1 Homestay Checks (40%)

- ☐ 5.1.2 — Annual repeat schedule for the household self-declaration
- ☐ 5.1.2 — Notify-on-change undertaking for the self-declaration
- ☐ 5.1.2 — Un-harden the SCR self-declaration column, which renders blank even though `selfDeclarationDocPath` / `selfDeclarationDate` are captured on `host-compliance-declaration.html` (audit finding #3; `scr-hosts`, `scr-staff`, `scr-drivers` lines 192 and 202)

5.3 Homestay Profile (55%)

- ☐ 5.3.1 — Shareable / exportable parent- and student-facing homestay profile (today it is an admin-only profile)
- ☐ 5.3.1 — Control over whether contact details are included when a profile is shared

5.4 Availability of Homestays (50%)

- ☐ 5.4.1 — Homestay availability calendar
- ☐ 5.4.1 — Measure of homestay supply against student numbers

5.9 Homestay Annual Training (90%)

- ☐ 5.9.1 — Due-date computation and overdue alert to drive the annual training cycle (the record is excellent; the reminder is manual)

5.10 Homestay H&S and Annual Visit (72%)

- ☐ 5.10.1.1 — Block placement creation until an initial in-person assessment visit exists
- ☐ 5.10.1.2 — Retire the static duplicates `homestay-accident.html` and `homestay-accident-create.html`
- ☐ 5.10.3 — Explicitly prompt for "changes since the last visit" in the annual review flow

5.11 Visits and Inspections (85%)

- ☐ 5.11.1 — Capture the AEGIS / statutory inspection co-operation undertaking **at application stage** specifically (currently captured at induction)

6.2 Designated Safeguarding Lead (46.4%)

- ☐ 6.2.6 — Role gate restricting `og_concerns` to the DSL and senior management — case narratives naming students, hosts and disclosures are readable by anyone with the browser open. *The audit calls this "the single most serious compliance failure".*

6.3 Safeguarding Training (68.3%)

- ☐ 6.3.1 — Three-year renewal computation for host and driver safeguarding training
- ☐ 6.3.1 — Pre-start gate so training is evidenced before a person begins
- ☐ 6.3.3 — Annual safeguarding-update tracking for staff (they have a three-year DSL cycle but no yearly refresh; homestays are fully covered via 5.9.1)

8 Day Students, Prolonged Stays & Private Fostering (69%)

- ☐ 8.1 — Automatic detection of a 28-day run by scanning `og_placements` / `og_exeats` (`isApplicable` is set by hand — precisely the "unexpected duration" risk the handbook warns about)
- ☐ 8.5 — Distinct monitoring cadence for over-16 day students
- ☐ 8.5 — Flag when a day student's homestay time grows

9 Liaison with Partner Schools (46.1%)

- ☐ 9.1 — Overdue-school-contact alert
- ☐ 9.2 — Confirmation that the school was told in advance of a site visit
- ☐ 9.3 — Generate and send written confirmation of contracted services (Appendix A asks for an example of one)
- ☐ 9.4 — Write the "Travel Notification" school log automatically on trip creation, not only on the share action
- ☐ 9.5 — Homestay-notification route to the school log, equivalent to the travel one — today a placement can be made and changed without the school being told
- ☐ 9.9 — Trigger a school notification when a student leaves guardianship (`student-archive.html` is static)

10 Liaison with Parents (66.7%)

- ☐ 10.1 — Parent-contact cadence rule and overdue-contact alert
- ☐ 10.1 — *Blocked*: "in line with the terms of the contract" cannot be met while no contract can be created (see 2.2.2, out of scope at 25%)
- ☐ 10.2 — Wire `parent-portal.html` (no `db.js`)
- ☐ 10.3 — One of the five named elements remains unmet (scored 4/5; the audit does not itemise which)

Part 3 — Cross-Cutting Blockers

These two structural defects are named by the audit as capping the achievable score. Both sit behind in-scope items above and cannot be closed by feature work alone.

- ☐ **Storage and access control** — every record lives in browser `localStorage`: unencrypted, single-browser, no authentication, no roles, no backup, lost on cache clear. `audit-log.html` — the page that would evidence an audit trail — has no `db.js` and is itself a mockup. This caps 3.4.3 and 6.2.6 in scope (plus 2.5.1 and 2.7.4, out of scope).
- ☐ **No company-level entity** — `db.js` models students, staff, hosts, drivers, parents, agents, schools and their events, but nothing models Oxford Guardians itself. A single `og_org_documents` store (title, category, publication date, review date, version, file) would lift a dozen sections at once and produce most of the Appendix A submission set. In scope this blocks 2.1.3, 2.1.6, 2.8.1, 3.3.1 and 5.10.1.

Appendix A — Audit's Highest Score-Per-Effort Ordering

Retained from the audit for prioritisation. Rows marked » act on sections in this worklist.

Change	Sections it moves	Est. gain
Policy & document store (org-level entity with publication/review dates)	2.3, 2.4, 2.7.2/3, »2.8.1, 2.10, »5.10.1, 6.1, 6.4, 6.6, 6.7, 6.9, 6.10, 7.1	+9–11 pts
Complaints module — reuse the concerns case pattern	7 (3.3% -> ~80%)	+1.8 pts
Wire concern creation — call the functions that already exist	6.5, and »3.2.2 follow-up	+1.5 pts
Contract creation form — the module is otherwise complete	2.2 (25% -> ~85%)	+1.4 pts
Homestay conditions fields — smoking, gender, religion, interests, heating/hot water, laundry, meals, communal access, CCTV, home-alone	»5.2, 5.5, 5.6, 5.7, 5.8	+5–6 pts
Student behaviour code — the 11 items at 6.8.1	6.8 (0% -> ~80%)	+1.9 pts
Authentication and roles on a server-side store	2.5.1, 2.7.4, »3.4.3, »6.2.6	+2–3 pts
Per-member DBS on household residents; SCR DOB and self-declaration cells	»5.1.3, »2.8.5, »Appendix 7	+1 pt

Appendix B — Sections Excluded by the >30% Filter

Listed for completeness; **not** covered by this worklist.

At exactly 30% (excluded — not *strictly* over): 2.7 Information sharing & data protection (30%), 6.10 Online safety (30%), Appendix 5 Homestay Self-Declaration (30%).

Below 30%: 2.2 Contracts (25%), 2.5 Record keeping (25%), 6.1 Safeguarding & CP policy (20%), 6.5 Allegations & low-level concerns (18.8%), 5.6 Meals (17.5%), 5.5 Student accommodation (15.8%), 2.4 Insurance (15%), 6.7 Missing students (12.5%), 2.10 Policies (10%), 6.6 Prevent duty (7.5%), 6.4 Whistleblowing (5%), 5.8 Conduct when hosting (4.2%), 3.1 Student induction (3.3%), 7 Complaints (3.3%), 2.3 Handbooks (3%), 1 Statement of aims (0%), 2.11 Significant changes (0%), 5.7 Laundry (0%), 5.12 Third-party providers (0%), 6.8 Student behaviour (0%), 6.9 Anti-bullying (0%).

Note on the filter: the >30% cut is a scoring threshold, not a risk ranking. Several excluded sections are the audit's own top priorities — Standard 7 Complaints (3.3%) is called "the cheapest fix in this audit", and wiring concern creation (6.5, 18.8%) reverses a safeguarding regression. Neither appears above.

Compiled from the AEGIS Percentile Compliance Audit of 27 July 2026, which supersedes the audits of 22 and 25 June 2026. 145 requirements across 43 sections; Standards 2.1.7 (Scotland) and 5.5.4 (boarding-house model) excluded by the audit as not applicable.
